

Lightweight Towing System (LTS)

- Selected for Jackal II & Husky by UK MOD
- Capable of towing loads of 18 000kgs / 39 600lbs
- Weight 26kgs / 57lbs
- Connects to vehicle towing eyes by Manroy designed adaptors

The LTS dramatically reduces recovery time and exposure during operations. It can be carried and installed by one person and can be supplied with a vehicle storage rack and shoulder carrying strap.

Lightweight Towing System Technical Specifications

Towing capacity
18,00kgs / 30,600lbs

Weight
26kgs / 57lbs
